CONSTITUTIONAL CARRY SURVEY

The 2A Project, Inc. is a 501(c)(4) non-profit Indiana corporation dedicated to the protection of Second Amendment rights in Indiana. We are conducting a survey regarding the positions of chief law enforcement officers (including elected sheriffs of all 92 counties and police chiefs in all municipalities) regarding their views on Constitutional Carry. Constitutional Carry is an initiative to remove the requirement for an Indiana License to Carry Handgun (“LTCH”) as a precondition for law-abiding Hoosiers to exercise their Constitutional right to bear arms by carrying a handgun – but would NOT affect existing state or federal laws as to who may or may not lawfully possess a firearm, including felons or other “prohibited persons.” Constitutional Carry would also not affect the validity of current LTCHs or the availability of LTCHs to future applicants for reciprocity or any other purpose.

We will publicly report your responses to this survey or publicly report that you did not respond, as applicable. Thank you for your willingness to provide valuable feedback on this issue.

1. Do you support Constitutional Carry? _____
2. Would your answer change if funding for police training and equipment would be unaffected by Constitutional Carry (*i.e.*, that such funding is replaced by other revenue)?

3. Would you like to explain your response in any way? _____

4. If you oppose Constitutional Carry, what would change your position, if anything?

Thank you for your participation and your service to your community.

Sincerely,

Guy A. Relford
